PROFESSIONAL SUMMARY

MCA student with knowledge of Frontend Development and Data Analytics, skilled in building responsive web applications and working with data-driven solutions. Proficient in HTML5, CSS3, JavaScript, responsive design, and UI development with hands-on experience in academic projects such as analytics dashboards and web platforms. Familiar with Data Analytics concepts including data handling, reporting, SQL, databases, data visualization, and dashboard development. Strong analytical thinking, problem-solving abilities, and eagerness to contribute in Frontend Development and Data Analyst roles while continuously learning modern technologies.

TECHNICAL SKILLS

- Programming: HTML5, CSS3, JavaScript, Python
 - Styling & Layout: Flexbox, CSS Grid, Responsive Design, Media Queries
 - Databases: SQL, MySQL, Firebase, JSON, Data Visualization, Chart.js, Excel/Spreadsheets
 - Tools & Platforms: Git/GitHub, VS Code, IntelliJ, Windows, Power BI, Tableau, Excel
 - Data Handling: JSON, REST API Integration
-

EDUCATION

Master of Computer Applications (MCA) – Global Group of Institute, Amritsar

2024 – Present

Bachelor of Computer Applications (BCA) – Gaya College, Gaya

2020 – 2024 | Percentage: 69.6%

ACADEMIC PROJECTS

Expense Analytics Dashboard — HTML5 · CSS3 · JavaScript · Chart.js · Local Storage

- Built a full-featured personal finance web application to track expenses, and transactions.
- Implemented interactive data visualizations (bar charts, pie charts) using Chart.js to display category-wise spending patterns and monthly trends.
- Designed responsive UI with CSS Flexbox/Grid for seamless cross-device compatibility.
- Leveraged Local Storage for persistent data management without a backend, demonstrating client-side data handling skills.

Free Courses Hub for Students — HTML5 · CSS3 · JavaScript · JSON

- Developed a responsive web platform aggregating free online course listings for students, improving resource discoverability.
 - Implemented dynamic content rendering by fetching and parsing JSON data, simulating REST API integration patterns.
 - Applied responsive design principles (media queries, Flexbox) to ensure optimal viewing across desktop and mobile devices.
-

CERTIFICATIONS

- Web Development – Excellence Technology, 2025
- Data Analytics – Cisco Networking (Badge - https://www.credly.com/badges/8983bf42-3ba4-496e-ac30-f3ba5a95a2c7/public_url)
