SUMMARY

Detail-oriented MCA graduate with a strong foundation in data analytics, reporting, and automation. Skilled in SQL, Advanced Excel formulas, pivot tables, data modelling, Python, Tableau, and Power BI, with hands-on project experience building interactive dashboards, KPI reports, and data visualizations. Strong analytical and problem-solving abilities, with a keen eye for identifying trends and data quality issues. Seeking an entry-level Data Analyst / Reporting & Analytics role to apply and grow these skills in a professional environment.

SKILLS

- | | | | |
|-----------------|----------------------|----------------------|-------------------------|
| • Power BI | • Python | • Tableau | • Statistical Analysis |
| • Flask | • Data Analysis | • DAX | • Reporting |
| • NumPy | • Pandas | • JSON | • Git/GitHub |
| • SQL | • MySQL | • Agile/Scrum | • Advance Excel |
| • KPI Reporting | • Database Modelling | • Data Visualization | • Microsoft Office |
| • HTML | • CSS | • JavaScript | • Business Intelligence |

PROJECTS

HR Employee Attrition Analytics Dashboard

Power BI · Microsoft Excel · DAX · SQL Server

- Cleaned and validated 1,470 employee records using SQL Server/SSMS, including duplicate, NULL, categorical, and data-type checks, before connecting the prepared dataset to Power BI.
- Built a 3-page Power BI dashboard using DAX to analyse attrition drivers, employee risk, job roles, tenure, and compensation, identifying 16.1% overall attrition and a 29.9% lower average income among leavers.
- Analysed attrition patterns across department, job role, overtime, job satisfaction, work-life balance, business travel, and compensation/career metrics using interactive Power BI visuals and slicers.

IPL – Dashboard

Power BI · Microsoft Excel · DAX

- Built an interactive IPL Analysis Dashboard covering 18 seasons (2008–2025) with dynamic season-wise filtering and team-level analysis.
- Designed DAX measures to surface Orange Cap/Purple Cap leaders, top boundary hitters, and team standings across relational match datasets.
- Created a polished dashboard interface using KPIs, charts, team logos, and player visuals to communicate performance insights effectively.

Sales Data Dashboard

Tableau · Data Visualization · KPI Reporting

- Built an interactive Sales Data Dashboard in Tableau, analysing customer shopping transactions, sales trends over time, and performance across product categories, shopping malls, and payment methods.
- Designed calculated fields and KPIs — Total Sales, Average Order Value, and Transaction Volume — to convert raw transactional data into actionable business insights.
- Built dashboard filters and interactive actions enabling drill-down analysis by category, mall, and time period for deeper exploratory analysis.

EDUCATION

MCA — Master of Computer Applications

Global Group of Institutes, Amritsar | CGPA: 8.2 / 10

Aug 2024 — Jun 2026

CERTIFICATIONS

- Google Data Analysis with Python (Specialization) — Google | Coursera ([Certificate](#))
- Data Analytics Job Simulation — Deloitte (via Forage) ([Certificate](#))
- Data Analytics — Cisco Networking Academy ([Certificate](#))
- Foundations of Prompt Engineering — AWS Skill Builder
- Responsive Web Design — freeCodeCamp ([Certificate](#))
- Web Development — Excellence Technology, 2025
